

GF-1554 EDFA Pump Laser Stabilizer

| | | |
|---|-----------------------------|--------------|
| Features: <ul style="list-style-type: none"> i Lock wavelength i Prevent temp drift i Prevent power drift i Allow laser diode tolerance i Customizable | Pump laser type | 980/1480 |
| | Peak reflectivity | 2% - 10% |
| | Bandwidth @-3dB | 0.2 – 1.5 nm |
| | Center wavelength tolerance | +/- 0.1nm |
| | Side lobe loss | >10 dB |

Typical reflective spectrum for 980 pump laser stabilizer

Output from stabilized 980nm pump laser
